

Paint Filling Machine : FL 5-30L Filling Equipment

[Click here](#)

FL 5-30L Filling Equipment is mainly used for quantities filling and sealing with chemical industry material, special applies to automatic filling and sealing with dope in chemical industry and oil, and also apply to automatic filling with foodstuff, latex type in medicine (customer supplies sample and main parameters).

Capability

It is the intelligentized product, composed of controlling process, machine, electricity and gas, the character is as follows:

1. Exact measure, static error $\leq 0.13\%$, dynamic $\leq 0.25\%$
2. Connecting to central controlling computer (choosing by user), achieving to modernize management
3. The warning of malfunction

Specification and Parameters

Technical parameter: FL 5-30L

Measure scope (Kg): 5-30L

Measure speed (time/h): 160-240

Allowable error: $\pm 0.2\%$

Voltage: AC220V 60Hz \pm 2Hz AC380V

Gas source: Flux: 0.1m³/min Pressure :0.4-0.6 Pa

Power (KW) : 4

Temperature: 0-40

Exterior size: According to provides outline drawing

Weight (kg) : 1050
