

Sand Mill : Radial Bead Mill

[Click here](#)

Model: Eco Ice

Cooling surface area: 5dm-1 7.8 dm-1

Rated power: 22kw

Chamber Volume: Approx. 7.5L

Circulation flow: Approx.2000L/h

linear velocity: 15m/s

Diameter of mill beads: 03-1.25mm

Separation of mill beads Centrifugal power

Sealing: Double-end mechanical seal

Control: Independently controlled by PLC and VFD

Protection level: IP54 or ATEX zone1

Operation panel: Common touch screen or touch screen with local PB station

Dimension: 1800X1200X1600

Remarks:

If explosion-proof is required, we choose Ex-proof Motor

With on-spot Ex-proof control box
