STE-3000 Complete coating equipment

1. Output: 3000tons/year, (8hours/day, 300days); total processing capacity: 45kw, covering area22 M2
2. Accomplish whole process of vacuum feeding, dispersing, grinding, cooling, color exchange, filtering, and semi-automatic filling independently.
3. The equipment's craft concentrates, less artificial factor, easy to production management.
4. Large output configures automatic control according to customer's craft requirement.
5. We can design output1000-10000tons/year according to different clients' request.
