SWG-30B Semi-Auto Filling Machine

Features:

This machine adopts weight filling method and it have convenient structure. Weight system adopts international brand & high precision sensor and new generation of numeral control system.

High precision, good adaptability and mature functions.

Ideal packing equipment in coating and paint industry.

Technical Parameters:

1. Overall Dimension: 1080*815*1700mm
2. Filling Scope: 1-30Kg
3. Weight Accuracy: 10-30kg \pm 10g
4. Material Viscosity: \leq 8 , 000 cp
5. Voltage/Frequency: 220V/50HZ
6. Current: 600mA
7. Air Pressure: \geq 0.5Mpa
8. Vessel Height: 100-350mm
9. Material Connections: DN32 (Inlet Pressure < 0.6Mpa)
10. Air Source Pressure: 0.5 \pm 0.1Mpa
